Price: \$19,385.00

Description

The Diamond C HDT210 Hydraulic Tilt Equipment Trailer is a premium heavy-duty trailer engineered for hauling larger equipment, machinery, and vehicles with confidence and control. Designed with a 22' x 82" frame, this model features a hydraulically dampened gravity tilt system with a 16' tilt bed and 6' stationary deck, allowing for efficient loading and unloading without cumbersome ramps.

Built for serious workloads, the HDT210 utilizes Diamond C's engineered beam frame design combined with 3" I-beam cross members on 16" centers for superior structural strength and durability. Tandem 10K torsion straight axles with electric drum brakes deliver exceptional ride quality, stability, and braking performance, while heavy-duty ST215/75R17.5 16-ply steel radial tires provide increased load capacity and reliability on the road.

Additional premium features include a 21K Demco EZ-Latch flat-mount coupler, integrated I-beam tongue, 12K drop-leg jack, heavy-duty V-tongue storage box with lid, super heavy-duty 3/16" diamond plate fenders, rub rail with stake pockets, curbside spare tire mount, all-LED lighting, and metallic gray paint. Built to perform in demanding commercial and construction applications, the HDT210 delivers the durability, strength, and professional-grade quality operators expect from a Diamond C trailer.

Features

- Exterior Features
 - Treated Wood Floor
 - Weld on 3/16ths Fenders
- Safety Convenience & Electrical
 - Spare Tire Mount
