## Description

The Diamond C 24’ DEC208 Deck-Over Trailer is a rugged and dependable heavy-duty trailer designed for hauling equipment, machinery, and oversized loads with confidence. Featuring a spacious 24’ x 102” deck-over design, this trailer delivers excellent load capacity and durability for demanding commercial and agricultural applications. Finished in premium Metallic Gray paint with Diamond C DEC decals, it combines professional styling with exceptional build quality.

Built on a heavy-duty 8” x 15 lb. I-beam frame and reinforced with 3” I-beam crossmembers on 16” centers, the DEC208 is engineered for long-lasting strength and performance. Tandem 8,000 lb. straight axles with electric drum brakes provide reliable towing and braking power, while the 6-leaf slipper spring suspension delivers durability and stability under heavy loads. The trailer rides on heavy-duty ST215/75R17.5 18-ply tires mounted on black steel wheels for superior load handling and road performance.

The durable 2” treated wood floor is built to withstand heavy equipment and daily use, while the 60” self-cleaning dovetail with MAX ramps allows for smooth and efficient loading and unloading. A heavy-duty V-tongue storage lid offers secure storage space, and the passenger-side tongue-mounted spare tire mount keeps the spare conveniently accessible.

Designed for versatility, the trailer features a 3/8” rub rail with stake pockets and pipe spools along with a 5” x 2” rectangular tube lace rail, providing multiple cargo securement options. Additional premium features include a 12K drop-leg jack, an integrated I-beam tongue, a heavy-duty 21K Demco EZ-Latch flat-mount coupler, and a durable 12” formed front bumper.

Equipped with all-LED lighting for enhanced visibility and safety, the Diamond C DEC208 Deck-Over Trailer is built to deliver strength, reliability, and professional-grade performance for even the toughest hauling jobs.
