Price: \$19,995.00

Description

The Diamond C 24' DEC210 Deck-Over Trailer is a premium heavy-duty trailer engineered for serious equipment hauling, commercial applications, and demanding workloads. Featuring a massive 24' x 102" deck-over platform, this trailer delivers exceptional cargo space and strength while maintaining Diamond C's reputation for durability and quality craftsmanship. Finished in a sleek Metallic Gray paint, the DEC210 offers both rugged performance and a sharp professional appearance.

Built on a robust 8" x 15 lb. I-beam frame with 3" I-beam crossmembers spaced on 16" centers, this trailer is designed to handle extreme loads with confidence. Tandem 10,000 lb. torsion straight axles paired with electric drum brakes provide superior stability, smoother towing performance, and dependable stopping power. The heavy-duty suspension system rides on ST215/75R17.5 18-ply black steel wheels and tires for maximum durability and load capacity.

The 2" treated wood floor is built for long-term performance, while the 60" self-cleaning dovetail with MAX ramps allows for efficient loading and unloading of heavy equipment and machinery. A floor-level winch mounting plate is included for easy winch installation without pre-drilled holes. Designed for functionality and convenience, this trailer includes a heavy-duty V-tongue storage box, front retractable steps, mid-turn light/step combos, and a passenger-side tongue-mounted spare tire mount. The 3/8" rub rail with stake pockets and pipe spools, combined with the 5" x 2" rectangular tube lace rail, provides versatile tie-down and cargo securement options.

Additional premium features include a 12K drop-leg jack, an integrated I-beam tongue, a heavy-duty 20K flat-mount coupler, and a 12" formed front bumper for added durability. Fully equipped with all-LED lighting for enhanced visibility and safety, the Diamond C DEC210 is built to tackle the toughest hauling jobs with reliability, strength, and style.
