**Price: $8,350.00**

## Description

The PJ 22’ EV equipment trailer with Minimizer fenders, a seamless I-beam frame, and a large front toolbox is built for folks who use their trailer hard and want something that’ll hold up for the long haul. The seamless I-beam frame gives the trailer a solid, heavy-duty feel without weak points or extra flex, making it a great setup for hauling tractors, skid steers, and equipment day after day. The Minimizer poly fenders are a nice upgrade too — they won’t dent or rust up like steel fenders, and they hold up a whole lot better when you’re around mud, rocks, and rough job sites. Up front, the large toolbox built into the tongue gives you plenty of room for chains, binders, straps, and tools, keeping everything organized and easy to get to. It pulls smooth behind the truck, loads easy, and is the kind of trailer that’s built to work hard without giving you problems down the road
