Price: $8,495.00

Description

The Diamond C 16’ GDD206 General Duty Deck-Over Trailer is a rugged and reliable heavy-duty trailer built to handle demanding hauling jobs with ease. Featuring a 16’ x 102” deck-over design, this trailer provides a wide loading surface ideal for transporting equipment, vehicles, pallets, and oversized cargo. Finished in a sharp Cement Gray paint color with Diamond C GDD decals, it combines durability with a clean, professional appearance.

Built on a heavy-duty 6” channel frame with 3” I-beam crossmembers spaced on 16” centers, this trailer is engineered for strength and long-lasting performance. Tandem 6,000 lb. axles with electric brakes provide dependable towing and stopping power, while the 5-leaf slipper spring suspension ensures a stable ride under load. The trailer rides on ST225/75R15 radial tires mounted on black 6-hole wheels for reliable road performance.

The treated 2” wood floor is designed to withstand heavy use, and the straight deck layout with 82” slide-in ramps allows for convenient loading of equipment and machinery. Additional features include a 2” x 1/4” rub rail with stake pockets and pipe spools for versatile cargo securement, a lockable 16” steel tongue toolbox for secure storage, and a front-center spare tire mount for easy access.

For added convenience and durability, the trailer is equipped with a 12K drop-leg jack, an integrated channel tongue, and a 21K Demco EZ-Latch adjustable coupler for secure towing. Retractable steps provide easier deck access, while all-LED lighting enhances visibility and safety on the road. Built tough and ready for work, the Diamond C GDD206 is an excellent choice for contractors, farmers, and heavy-duty hauling applications.
