*The Diamond C DET207 tilt bed gooseneck is the kind of trailer you hook up when you want loading to be quick and hassle-free without messing with ramps. With around a 14,900 lb GVWR and tandem 7K axles, it's got plenty of backbone for hauling tractors, skid steers, or whatever equipment you're moving that day. The full hydraulic tilt bed does the hard work for you—just ease your machine on and off without worrying about angles or setup, which saves time and headaches. The gooseneck pulls smooth and steady behind the truck, and that wide 102" deck gives you plenty of room to work with. Built on Diamond C's engineered beam frame with a solid wood floor and heavy-duty components, it's a dependable, everyday trailer that makes loading simple and gets the job done without any fuss.*
