The Diamond C FMAX207 gooseneck with Max Ramps is a solid, no-nonsense trailer built for folks who need to get work done without fighting their equipment. With a 15,500 lb GVWR and tandem 7K axles, it's got plenty of muscle for hauling tractors, skid steers, and whatever else you've got around the farm or jobsite. The Max Ramps are wide and easy to handle, so loading up is quick and steady, even with heavier machines. It's got that low deck height that makes a difference when you're driving equipment on and off, and the gooseneck setup pulls smooth and stable behind the truck. Built tough with Diamond C's engineered frame and a sturdy wood floor, this is the kind of trailer you hook up to every day and don't have to think twice about.
