Sales Price: \$12,000.00

Description

The Diamond C HDT207 Hydraulic Tilt Equipment Trailer is a premium-grade equipment trailer engineered for maximum strength, durability, and efficient loading performance. Designed with a 20' x 82" frame and a full-bed hydraulically dampened gravity tilt system, it provides smooth, controlled ramp-free loading for skid steers, tractors, vehicles, and other heavy equipment. Built on an 8" x 10 lb I-beam main frame with 3" I-beam cross members on 16" centers, this HDT207 delivers exceptional structural rigidity for demanding commercial and construction use. Tandem 7,000 lb drop axles with electric drum brakes and upgraded 6-leaf slipper roller spring suspension ensure stable towing, improved ride quality, and dependable braking performance under load. Heavy-duty ST235/80R16 14-ply radial tires (plus matching spare) provide added durability and confidence on the road.

This configuration includes premium upgrades such as a full-bed tilt design, a 21K Demco EZ-Latch adjustable coupler, integrated I-beam tongue, HD V-tongue storage box with lid, curbside spare tire mount, and a single 15K Simol 2-speed drop-leg jack for enhanced lifting power and convenience. Additional features include bolt-on diamond plate teardrop fenders, rub rail with stake pockets, four 5/8" D-rings, and a 2" treated wood floor for reliable deck performance. Finished in Onyx Black with all-LED lighting, this HDT207 combines rugged jobsite capability with a clean, professional appearance built for serious daily use and long-term reliability.

Features

- Exterior Features
 - Diamond Plate Fenders
