PRIMER & BLACK POWDERCOAT
The PJ Voyager Series hydraulic dovetail gooseneck is built for folks who want loading heavy equipment to be quick, smooth, and hassle-free without dealing with ramps. With a 25,000 lb GVWR and heavy-duty axle options, it's got the strength to handle tractors, skid steers, and serious jobsite loads without any trouble. The 12-foot hydraulic dovetail lowers down nice and easy with the push of a button, giving you a low, steady angle that makes loading safer and a whole lot faster. It's got a wide 102" deck and a low-profile setup that makes driving equipment on feel more controlled, and the gooseneck pulls straight and stable behind the truck, even with a full load. Built tough with a heavy-duty frame and made for real work, this is the kind of trailer that saves you time every day and holds up when you put it to use.
