Description

Available Lengths
8'6", 9'4", 11'4"
XCoat

NXG’s proprietary multi-stage cleaning and powder coating system delivers unmatched corrosion resistance and a professional, durable finish built for harsh environments

XRack

Fully integrated headache rack system built into the body, not bolted on, with precision 3" × 4" steel tubing, mandrel bends, and built-in XLights with strobe capability for job-site safety

XRack Worklights

Two high-density rack-mounted lights for unmatched visibility and easy operation after dark

XDeck

1/8" recessed treadplate deck with XCoat finish eliminates exposed edges for superior corrosion resistance and lasting durability

XHitch

Frame-integrated towing system engineered for maximum strength and safety. The gooseneck box is rated at 30,000 lb and includes upright safety chain keepers, a standard seven-way trailer plug, and an emergency breakaway loop. The receiver system delivers an industry-leading 24,500 lb capacity, built directly into the frame for unmatched durability and performance

XSteps

Integrated NXG XSteps positioned in front of and behind the fenders, along with the largest rear step in the industry featuring non-slip covers for secure, all-around bed access

Trailer Light Plugs

Rear panel features an automotive-grade seven-way/four-way 12-volt electrical hookup for reliable trailer connections, and the gooseneck box comes standard with a seven-way plug

Fuel Fill

Angled fill neck with rear-facing design on cab chassis bodies for easier fueling and reduced splashback

Trailer Light Plug

Automotive-grade seven-way/four-way 12-volt hookup for easy, reliable trailer connections

Toolboxes

Two tall vertical front boxes, each equipped with two adjustable shelves, plus two integrated rear toolboxes, all come standard with T-handle compression latches. Every component is fully powder-coated for long-lasting corrosion protection

Frame & Crossmembers

4" precision-cut structural steel runners paired with 3" roll-formed steel crossmembers deliver maximum body strength, superior deck support, and enhanced towing capacity

Side Rails

3/8"?×?2" formed steel rub rails with integrated stake pockets and tie-down compatibility

Fuel Fill

Angled fill neck with rear-facing design on cab chassis bodies for easier fueling and reduced splashback

Marker Lighting

DOT-approved LED bullet lights for road-ready visibility

Fenders

Heavy-duty steel radius fenders for lasting durability
