Price: $7,295.00

MSRP: $7,700.00

Description

Versatility Without Compromise: 2026 Sure-Trac 8.5x20 Low Profile Deckover Flatbed (10K)

When your cargo requires the full 8.5' width of a deckover but you want to avoid the high loading angle of a traditional flatbed, the 2026 Sure-Trac Low Profile Flatbed is the industry standard. With a 32" deck height, this trailer provides a lower center of gravity and easier loading for small equipment, ATVs, or golf carts while maintaining the "deckover" advantage of a completely flat hauling surface.
This is a professional-grade tool designed for those who need a lightweight yet sturdy trailer that makes maneuvering effortless without sacrificing payload capacity.

Key Features for Maximum Efficiency
• 8' Steel Fabricated Slide-In Ramps: These long, durable ramps provide a secure solution for loading heavy equipment with increased stability and a manageable incline.
• HD Tube Bulkhead: Unlike standard flatbeds with no front protection, this reinforced bulkhead prevents cargo from shifting forward, enhancing both structural support and safety.
• Comprehensive Tie-Down System: Features (6) 1/2" D-rings and a full stake pocket and rub rail system, offering nearly infinite anchoring points for oddly shaped cargo.
• Lower Loading Profile: The 32" deck height reduces the risk of cargo damage during loading and unloading while providing a more stable tow on the highway.

• Industrial Finish: Protected by an Industrial Grade Polymer Finish, this trailer is built to withstand rigorous use and resist the elements.

Specifications & Capacity

Feature	Specification
Model Year	2026
Dimensions	8.5' x 20'
GVWR	9,900 lbs
Payload Capacity	6,885 lbs
Curb Weight	3,015 lbs
Axles	(2) 5,200 lb. Spring Brake
Decking	2" Pressure Treated Pine w/ Steel Tread Plate Over Wheels
Ramps	8' Steel Fabricated (Slide-In)
Jack	7K Drop Leg, Set-Back
Wheels	15", 6-Lug Steel

Why Choose This Deckover Over "Budget" Alternatives?

In the 10K class, build quality is what determines your trailer's lifespan. Sure-Trac utilizes a 5” steel channel frame and 5” x 2” steel tube side rails, creating a more rigid platform than the lightweight angle-iron frames found on economy brands.

From the full LED lighting system to the adjustable 2-5/16" ball coupler that accommodates various truck heights, every detail is engineered for convenience. You also get an adjustable spare tire carrier as standard equipment, ensuring you are prepared for unexpected roadside emergencies. Invest in a trailer that combines reliability, safety, and adaptability for every hauling task.
