**Description**

Industrial Dump Trailer
When heavy-duty jobs demand a hard-working solution, the H&H Industrial Dump Trailer delivers. Built to haul, load, and dump with confidence, this dump trailer offers reliable features that stand up to the toughest work environments.
Key Benefits
Combo Barn Door Spreader Gate with Cambar – Versatile Tailgate for Easy Dumping or Loading
This dual-purpose design lets you swing open the doors or spread material evenly, giving you more control over every haul.
Slipper Spring Suspension – Heavy-Duty Suspension for Smoother Towing

The slipper spring system provides better weight distribution and shock absorption, reducing bounce and sway on rough roads.

10-Gauge, One-Piece Steel Floor – Solid, Seamless Deck Built to Handle Abuse

The thick, one-piece steel floor resists warping, bending, and corrosion even under the toughest loads.

Mesh Tarp Kit with Anti-Sail Kit – Full Coverage That Stays Put in Transit

The included tarp system keeps your load contained and prevents blow-off, meeting safety and road compliance standards.

Scissor Hoist – Effortless Lifting Power

The hydraulic scissor hoist provides powerful, stable lifting for your dump trailer, making heavy loads easier and safer to dump with less strain on your equipment.

Why Choose an H&H Industrial Dump Trailer?

Overview

The H&H Industrial Dump Trailer is built for serious work. Whether you're hauling aggregate, demolition debris, or equipment, this trailer is designed to meet the demands of professionals who need strength, reliability, and versatility from their equipment. With its rugged construction and reliable components, it's ready to take on the toughest jobsite challenges.

Available Models

Choose from a range of bed sizes, axle configurations, and coupler types to match the scale and style of your work. Models are available with traditional bumper pull or gooseneck configurations for increased stability and tighter turning on heavy hauls.

Standard Features

Every industrial dump trailer comes equipped with a 10-gauge, one-piece steel floor, robust top rail, and full structural steel frame for superior strength and longevity. The combo barn door spreader gate gives you flexible unloading options, while the slipper spring suspension smooths out the ride under load. A robust scissor lift hoist is included for efficient and reliable dumping performance.

The hydraulic system is powered up and power down, providing you reliable operation regardless of load weight or environmental conditions. All models include a mesh tarp kit with an anti-sail system to easily cover your load for safety and compliance.

Additional standard equipment includes a deep cycle battery, 12V hydraulic pump, 10-amp trickle charger, LED lighting, sealed wiring harness, stake pockets, rub rails, and integrated loading ramps.

Options

Customize your dump trailer with a wide range of factory-installed options, including wireless remote dumping controls, hydraulic jack upgrades, and side wall extensions for increased load capacity.
