Why Choose an Impact Quake Cargo Trailer?
Built to Haul Hard
Quake Cargo Trailers are built for serious work—jobsite tough and road ready. The fully enclosed design shields your cargo from the elements, while commercial-grade construction stands up to the grind. It’s a cargo trailer that works as hard as you do and doesn’t quit when the road gets rough.
Purpose-Driven Utility
From contractors to outdoor pros, this enclosed cargo trailer adapts to whatever you throw its way. It’s perfect for tools, gear, or supplies—and it’s built to keep it all protected and secure, whether you're heading to a jobsite or a weekend destination.
Smart Construction, Tough Materials
Every part of the Quake is selected for long-term performance. Tube steel framing brings unmatched structural strength, while automotive undercoating defends against road wear. The engineered wood interior resists warping, and the VHB-bonded exterior gives the trailer a clean, high-end finish.
Confidence on Every Run
When you tow a Quake, you're hauling with confidence. You’re not just getting a trailer—you’re investing in durability, dependability, and a professional-grade look that lasts. Fewer repairs, less downtime, and more time getting the job done right.
