Description

Protect and easily access your equipment with the Buyers Products Black Steel Underbody Truck Box with T-Latch. Available in a variety of sizes, each professional-grade truck box has a rugged 14 Ga steel body that can handle the harshest job sites. The truck toolboxes are powder-coated inside and out for superior corrosion resistance and style. The continuous hidden hinge and replaceable gasket system keep weather and grime away from your tools. Aircraft-grade cables help prevent damage. The locking, stainless steel compression latch provides a tight seal and deters theft.
