Description

30,000 lb.-rated CURT rail system compatible with GN or rail system
With top-of-the-line, independently tested CURT Hitches, the CM Hotshot is capable of handling up to 30,000 lbs. with a gooseneck or 5th wheel configuration --- the highest-rated integrated hitch system in the industry! Trust CM with your heaviest loads and toughest hauls. To buy the hitch of your choice, see your CURT Hitch distributor and ask for CURT Part 16090 (30K Gooseneck) or 16190 (30K 5th Wheel). 2 lockable integrated toolboxes featuring T-handle compression latches Store your essentials conveniently out of the way with two standard toolboxes. Our recessed toolbox doors provide maximum protection against the elements for your tools and equipment. For added security, the dual latches lock with a key and padlock loop when desired. \
\

The Hotshot's 18 inch deep Fuel Deck provides storage space for your external fuel tank, allowing maximum fuel capacity while on the road. This unique feature helps eliminate stops at the pump, saving you valuable time.

Integrated Rear Lighting

Tired of using OEM rear taillights from the old days? Look to CM to provide best-in-class LED lighting recessed in the rear tail skirt. The CM Hotshot features tail and reverse lighting recessed to give your workhorse a sleek appearance at the rear! Our lighting is brighter, sleeker and out of harm's way --- unlike most hotshot applications, which merely attach to the frame of the chassis.

Standard integrated tube headache rack

Rarely found on this type of bed, the CM Hotshot features our single-piece integrated headache rack, designed with the best and strongest materials to keep you safe when cargo shifts while in transit or the unexpected happens. LED recessed tail, brake and backup lights mounted in headache rack

CM's LED lights are brighter, light up instantly, and use less power than conventional incandescent lights, so your stops, turns and tag lights will easily be seen and recognized. Plus, they're protected by a lifetime warranty. 1/8 steel treadplate deck

This strong and long-lasting deck is designed for heavy-duty work, withstanding the rigorous work conditions that our bodies are placed under. Compare to other bodies on the market, which use 11-gauge and 13-gauge floors.

4 structural steel channel frame rails

Because we don't use roll-formed runners, our structural 4 channel frame rails are stronger and more durable than any on the market. They also prevent any rusting from the interior of the tube.

Super-durable TexArmor powder-coat finish

CM Truck Beds coats our products with powder, rather than paint. We cover every crevice and corner, providing long-lasting protection against corrosion and a superior finish and shine.
