Price: \$17,700.00

Sales Price: \$15,500.00

Description

OVERVIEW

The FFRD Series Dump Trailer by Midsota combines a rear dump bed for efficient unloading with a front stationary deck for added versatility, making it ideal for hauling equipment and materials. Built for durability and performance, this trailer is perfect for both professionals and homeowners. With rugged construction, a reliable hydraulic dump system, and premium features, the FFRD stands out among dump trailers and utility trailers, delivering power and efficiency for any job.

FEATURES

The FFRD Series comes equipped with a range of premium features designed for durability and ease of use. Self-adjusting electric brakes provide reliable stopping power with minimal maintenance, while 16-inch crossmember spacing enhances structural strength for heavy loads. A poly toolbox offers convenient storage for essential tools and accessories, and the trailer is tarp-ready for easy load coverage. The power-up, gravity-down hydraulic pump ensures efficient operation, and all wiring is securely enclosed to prevent damage. Additionally, four D-ring tie-downs provide secure cargo anchoring, and Midsota backs this trailer with a five-year frame warranty, ensuring long-term reliability.

OPTIONS

The FFRD Series Dump Trailer offers several options to enhance its performance and versatility. An 8K axle upgrade increases load capacity for those requiring extra strength and durability. A gooseneck hitch option provides improved towing stability and weight distribution for heavier loads. For added convenience, a hydraulic jack can be installed to eliminate the need for manual cranking, while a solar charger helps maintain battery life to keep the hydraulic system powered even in remote locations. A roll tarp can also be added to keep materials secure and protected from the elements during transport. With these available options, users can customize their FFRD Series trailer to meet their specific hauling needs.

While we strive to represent our trailers with 100% accuracy - please call to confirm details of trailer.
