Description

This 2026 PJ Trailers 14 FT telescopic dump trailer is built for serious material hauling with a telescopic hydraulic cylinder and 8K oil bath axles that handle heavy, repeated dumping cycles. The 7-gauge steel floor and I-beam frame stand up to gravel, dirt, and debris, while 16-ply tires on 215/75R17.5 load range H rubber provide a stable, durable ride. A spread gate/combo gate gives you flexibility for different materials, and pull-out ramps let you load equipment when you're not dumping. A full-size tool box and deep cycle battery add everyday convenience, and the adjustable coupler can be swapped to a pintle for added versatility. With a 17,500 lb GVWR and 13,440 lbs of payload capacity, this telescopic dump trailer is priced at \$14,499.
