Call for Price

Description

EXTANG SOLID FOLD 2.0 TONNEAU COVER call for pricing on your application.

Solid Fold 2.0 tonneau features a durable tri-fold cover with a rail-free design, and has an easy-to-use clamping system for installation and removal.

Features:

Custom-fit tonneau cover protects your cargo and your vehicle's bed from the elements

Aerodynamic style reduces wind drag, improving gas mileage

Toolbox edition is designed to work with most 18" - 20" standard toolboxes

Watertight seal along toolbox prevents water from leaking into the bed

Self-contained cover completely removes from truck bed

No rails to remain on bed once tonneau is removed
Attachment hardware is built into the cover - no separate clamps or bolts to install or lose
Tri-fold design allows for partial bed access in seconds
Lift panel at tailgate to get at contents of bed
Fold up and secure rear and center panels to free up two-thirds of your bed
Sturdy, fiberglass-reinforced nylon clamps ensure a secure truck bed when tailgate is closed and locked
Automotive-grade, snap-on seals, rubber corners, and hinge caps help to keep water out of your truck bed
1" Thick, automotive-grade polypropylene panels with high-strength thermoplastic skin
Offer superior dent resistance
Remain cool to the touch on hot days
Won't fade or break down from exposure to UV rays or harsh weather
Aircraft-grade aluminum panel frames and hinges have a textured powder coat for added protection
Cover rests on top of truck bed side rails
Sits 1" to 1-1/2" above bed rails
Will not work with stake-pocket-mounted accessories
Hassle-free installation with no tools or drilling
Jaw-Grip clamps secure front panel to truck bed side rails at the cab
Spring-loaded EZ-Lock clamps secure the rear panel to truck bed side rails at the tailgate
OEM-style matte black finish
Made in the USA
