The Sure-Trac ST8222ET-A-140 is a 7' × 22' aluminum equipment trailer built for heavy-duty hauling with a 14,000-lb GVWR. Constructed with an 8" extruded aluminum frame, 4" channel crossmembers, and a 6" channel tongue, it provides exceptional strength while keeping weight down. The deck features pressure-treated 2×6 pine, an aluminum 24" drop-tail, and aluminum stand-up ramps.

For reliable towing and durability, it includes 7000-lb HD slipper-spring axles, 235/80R16 LRE radial tires, cambered brake axles, and a 12K setback drop-leg jack. Additional features include removable HD tread-plate fenders, LED lighting, sealed brake connections, EverLink™ wiring harness, stake pockets and rub rail, D-rings, and a spare tire carrier—all finished in corrosion-resistant aluminum for long service life.
