Price: $17,250.00

Description

The Diamond C DOD207 deckover dump with fold-down sides is built for folks who need the best of both worlds — the hauling room of a deckover and the convenience of a dump trailer that's easy to load from the side. Those fold-down sides make a big difference when you're loading pallets, hay, equipment, or materials with a forklift or tractor, giving you more ways to use the trailer than a standard dump. Built tough with Diamond C's engineered frame and a heavy-duty telescopic cylinder, the DOD207 has the strength to handle gravel, dirt, brush, or heavy farm loads without any trouble. The deckover design gives you a wide, open bed with plenty of room to work, while the trailer pulls smooth and steady behind the truck even when it's loaded down. Whether you're feeding cattle, cleaning up around the farm, or hauling material to the jobsite, this is the kind of trailer that saves time, works hard, and earns its keep every day.
