Description

Outback® DLX Cargo Trailer
The Outback® DLX Cargo Trailer delivers dependable performance in a rugged, enclosed design built for everyday hauling. With thoughtful construction features and essential durability enhancements, this enclosed cargo trailer is ideal for personal or professional use. Whether you're transporting tools, gear, or inventory, the Outback DLX offers long-lasting value and protection wherever you tow.
You need a trailer that can handle the demands of your work and adventures. Pace American trailers are built for long-term performance, giving you the confidence to haul whatever, wherever.
Key Benefits
Steel Tube Wall Studs and Roof Bows
Provides superior structural integrity compared to stamped or formed sections, ensuring greater durability in tough conditions.LED Lighting Package
Includes bright, low-draw LED clearance and brake lights for increased visibility and safety.One-Piece Aluminum Roof
Seamless design helps prevent leaks and offers long-lasting weather resistance.High-Performance Engineered Wood Walls and Floors
Stronger and more moisture-resistant than OSB or standard plywood, these materials are built to withstand daily abuse.
Why Choose a New Outback® DLX Cargo Trailer?
Overview
The Outback® DLX Cargo Trailer is engineered to provide everyday users with reliable performance in a durable, enclosed trailer. Built on a steel-tube frame with enhanced features not found on standard cargo trailers, the Outback DLX is ideal for both commercial and recreational hauling. Whether you're headed across town or cross-country, this trailer is designed to go the distance with confidence.Interior Features
Inside, you'll find high-performance engineered wood walls and floors that outperform standard plywood and OSB. These materials resist warping and moisture damage, keeping your cargo secure and the trailer's structure sound over time. Recessed LED interior lighting and integrated steps (select models) offer added convenience and accessibility for everyday loading and unloading.Exterior Features
Built for protection from the elements, the Outback DLX features a one-piece aluminum roof that resists water intrusion and offers excellent durability. LED exterior lights provide bright, energy-efficient visibility, while DOT-compliant safety chains and high-quality couplers ensure secure, reliable towing. A standard curbside entry door with keyed latch offers convenient access to your cargo.Model Range and Configuration Options
The Outback DLX is available in a wide range of sizes and GVWR classes, from compact single-axle units to heavy-duty tandem-axle configurations. As GVWR increases, the trailer includes upgraded crossmembers, frame components, and tongue assemblies—from 24" on-center steel crossmembers on lighter models to 16" spacing and a 6" x 2" triple-tube tongue on 10K GVWR units. This tiered standard feature set ensures every trailer is equipped appropriately for its intended load capacity.
