SPECIFICATIONS

The Triple Crown 7x14 T/A ATV Trailer is an open, tandem-axle utility trailer specifically configured for hauling multiple ATVs, UTVs, or side-by-sides.

- Dimensions: 7 feet wide by 14 feet long deck space.
- Axles: Branded 3,500 lb. tandem axles (7,000 lbs. total mechanical axle capacity).
- Brakes: Equipped with electric brakes and an integrated breakaway safety kit.
- GVWR: Generally rated around 5,500 lbs. to 7,000 lbs. depending on specific regional certification setups.
- Wheels/Tires: ST205/75R15 radial tires mounted on heavy-duty steel wheels.
- Decking: Pressure-treated wood flooring built to withstand outdoor elements.

Lighting: Full LED light package for legal safety and high visibility.

- Removable Side Rails / Ramps: The side guard rails double as removable loading ramps. This layout lets you drive an ATV directly onto the front of the deckfrom the side.
- Rear Loading Gate: A heavy-duty 4-foot mesh gate sits at the rear, perfect for driving straight up with a larger, longer UTV or side-by-side.
- Frame Structure: Constructed with an A-frame channel tongue and an open angle-iron top rail, providing plenty of structural tie-down points to secure your machine
