Price: \$7,295.00

MSRP: \$7,700.00

Description

Maximize Your Haul: 2026 Sure-Trac 8.5x20 (17+3) Low Profile Deckover 10K

When your job requires hauling wide equipment, pallets, or bulky materials that a standard fender-style trailer can't handle, you need a deckover that doesn't compromise on stability. The 2026 Sure-Trac Low Profile Beavertail Deckover is engineered to provide the massive deck space you need while maintaining a lower center of gravity for superior towing.

With a 32" deck height, this trailer offers the perfect balance—giving you the clearance of a deckover with a loading height that is significantly easier to manage than traditional high-deck models.

The Low Profile Advantage

This isn't just a flat platform; it is a precision-engineered hauling solution designed for contractors and professionals who need versatility.

- **Innovative 17+3 Configuration:** The 17' flat deck combined with a 3' gently sloped beavertail simplifies the loading of wheeled equipment like mowers, ATVs, and small vehicles.
- **Heavy-Duty Loading Gear:** Equipped with 5' tall spring-assist stand-up ramps that include integrated support legs, you can load heavy machinery without the trailer "squatting" or the ramps slipping.

- **Superior Frame Construction:** While others use basic channel, Sure-Trac utilizes a 5" steel channel frame paired with 5" x 2" steel tube side rails and 2" steel tube crossmembers for maximum torsional rigidity.
 - **Built-In Protection:** Features an HD tube bulkhead to prevent cargo from shifting forward and a steel tread plate over the wheels for added durability in high-wear areas.
-

Specifications & Performance Data

Feature Specification

Model Year 2026

Size 8.5' x 20' (17' Flat + 3' Beavertail)

GVWR 9,900 lbs

Payload Capacity 7,100 lbs

Axles (2) 5,200 lb. Spring Brake Axles

Deck Height 32"

Frame 5" Steel Channel w/ 5" x 2" Tube Side Rails

Decking 2" Pressure Treated Pine

Ramps 5' Stand-Up w/ Spring Assist and Support Legs

Tie Downs (6) 1/2" D-Rings, Stake Pockets, and Rub Rail

Why This Deckover Stands Out

A trailer is only as good as its weakest point. The Sure-Trac Low Profile Deckover eliminates those weak points by including professional-grade features as standard equipment:

- **Stake Pockets & Rub Rail:** Provides nearly infinite tie-down configurations for oddly shaped cargo.
 - **Industrial Grade Polymer Finish:** A high-gloss, durable coating that resists chips and corrosion far better than standard paint.
 - **Smart Storage:** Comes with an adjustable spare tire carrier and is ready for a recessed, lockable drop-in toolbox.
 - **Full LED Lighting:** Ensures maximum visibility and safety in all weather and light conditions.
-

The Professional Choice for Wharton & Beyond

If you are tired of struggling with high-deck trailers or narrow equipment haulers, it's time to move up to the Low Profile Deckover. It is built to withstand rigorous, daily use while keeping your equipment safe and your transition at the job site seamless.

Experience the difference of a trailer built for real-world efficiency.
