Price: $3,995.00

Description

The Greenfield Trailers 8214 single axle utility trailer with the upgraded 6K axle and electric brakes is a small trailer that’s built to do more than you’d expect. It’s still easy to pull and handle, but that heavier axle and added braking power give you a lot more confidence when you’ve got it loaded down with mowers, ATVs, or small equipment. The fold-up gate makes loading quick and simple, and it tucks up out of the way when you don’t need it, giving you a clean, open deck. Built in Pennsylvania with solid craftsmanship, this trailer is made to hold up to real use, not just light chores. It tows smooth, stops better with the electric brakes, and is the kind of trailer you’ll find yourself reaching for all the time because it’s just plain useful.
