Price: $3,999.00

MSRP: $5,199.00

Description

The 2026 Wolverine 4 Series is a single-axle all-aluminum utility trailer, built in Michigan for owners who want to tow light and carry more. Aluminum means no rust and a lower empty weight, so more of your tow rating goes to the load instead of the trailer. A treated wood-plank deck and fold-up rear ramp gate make it an easy everyday hauler for mowers, ATVs and yard work.
• 3.5K - GVWR on galvanized-steel axle with self-adjusting electric brakes and a breakaway switch

• All-aluminum double-hollow tube frame with 12" aluminum side rails
• Treated 6x12 wood-plank deck, 84" between the fenders
• Fold-up rear ramp gate
• 2" A-frame zinc-plated coupler with drop-leg jack and poly wheel
• 4,000-lb bolt-through D-ring tie-downs and aluminum fenders
• All-LED lighting with a lifetime warranty and a 7-way connector
• Aluminum-alloy wheels on Load Range E radial tires

Please give us a call for details and current trailer availability. Descriptions are subject to possible errors, so we recommend calling to verify all information.
