If you've been looking for a trailer that makes hauling feel easier, more reliable, and more efficient... this is it.

The Sure-Trac ST-TDOF10220-100 Deckover Equipment Trailer gives you the space, strength, and capability to handle bigger jobs without the usual hassle. With its 102" wide, 20' long deck, you'll immediately notice how simple it becomes to load wide equipment, pallets, or materials—no tight fits, no wasted time.

Built with a rugged steel frame and treated wood deck, this trailer is designed to give you peace of mind every time you tow. The dual heavy-duty axles and 10K GVWR mean you can haul what you need, when you need it—without second-guessing your setup.

And because the deckover design keeps the wheels underneath, you get maximum usable deck space and smoother, more flexible loading from multiple angles. Add in the full-width rear ramps, and you'll find yourself loading equipment faster and with less effort.

With stake pockets, rub rails, and multiple tie-down points, you stay in control of your load—secure, stable, and confident from start to finish. Plus, the powder-coated finish and LED lighting help ensure this trailer keeps looking good and performing strong for years to come.

? Imagine pulling up to your next job already knowing you've got the right trailer behind you.

? Imagine loading faster, hauling smarter, and finishing sooner.

That's what this Sure-Trac delivers.

Come see it today in Richland—or call now before it's gone.
