Description

MBX+ delivers heavy-duty stainless-steel construction and trusted BOSS durability for municipal and commercial-grade operations. Powered by Cold Front Technology, MBX+ features standard rate control and easy material calibration for up to 10 job sites, allowing crews to quickly dial in material output for any job size. Optional Auto Spread Control automatically adjusts material flow to

match vehicle speed, reducing waste and ensuring precise spreading. Designed for fast, simple maintenance, MBX+ includes a dual flip spinner assembly and a high output pintle chain that moves over 400lbs of material per minute. With a scalable 4-yard capacity and optional 1-yard and 2-yard bolt-on extensions, fleets can scale the spreader to meet the needs of any application.

Cold Front Technology - Cold Front Technology with a newly designed connector, merging Power/Ground cables and Control wires into one.

Scalable Hopper Capacity - 4-Yard base hopper capacity with optional 1-yard and 2-yard bolt-on extensions allow fleets to scale capacity.
