Description

*** FOR THE MOST UP-TO-DATE AVAILABILITY, PLEASE CALL US FIRST ***

The Triple Crown 7x16 XD 16K Telescopic Dump Trailer (2' Low Side) is a commercial-grade, heavy-duty workhorse designed for serious hauling, construction, and large-scale landscaping jobs, Main Frame: Constructed using a rigid tubular steel main frame reinforced with channel cross members to resist twisting under uneven loads.

1. Dimensions: 7 feet wide by 16 feet long bed.
2. Weight Profile: Empties out around 3,500 lbs, providing a massive payload capacity of approximately 12,500 lbs.
3. Wall Height: 2-foot (24") low sides, which lowers the center of gravity and simplifies side-loading materials or debris.
4. Axles: Dual 8,000 lb EZ-Lube brake axles to confidently support the 16K frame.
5. Tires: Upgraded high-load radial tires mounted on heavy-duty 8-lug.wheels.
6. Combo Rear Gate: Outfitted with barn-style rear doors and an integrated spreader gate, giving you the flexibility to either dump large debris quickly or evenly spread gravel and dirt while driving.
7. Slide-In Ramps: Standard heavy-duty under-bed slide-in ramps make it simple to load skid steers, tractors, or mini-excavators right into the dump box.
8. Tarp Kit: Includes a integrated black mesh roller tarp system to legally secure loose loads like mulch, sand, or gravel on the highway.
9. Lighting: Fully equipped with protective DOT-compliant LED tail and marker lights for optimal visibility.
