Description

Rounding out our lineup of compact utility trailers, this 2027 HTC 5x10 steel utility trailer combines a manageable footprint with genuinely useful upgrades. A steel C-channel frame and tube rail perimeter form a durable foundation, and flat hook pockets along with S-hook holes give you several tie-down points for straps and ratchet chains. E-track accessory slots add even more flexibility for mounting cargo boxes or racks. The spring-assist gate is the standout feature here — it takes the effort out of raising and lowering a loaded tailgate, which matters if you're loading and unloading multiple times a day. Rated for a 2,160 lb payload on a 2,990 lb GVWR platform, the 120 in x 60 in wood deck handles small equipment, yard debris, or moving loads with room to spare. EZ lube hubs simplify maintenance, radial tires ride smoother than bias-ply alternatives, and the powder-coated finish holds up to weather over time. LED lighting, a setback tongue jack, and a 2 in coupler complete the package. At 830 lbs curb weight, this black HTC 5x10 is easy to tow and easy to store, and it's priced at \$2,399.
