Price: $11,000.00

Description

Heavy duty arm bed with dual cylinder lift, and synchronized squeeze arms.
3/16 Floor Plate
Structural Steel Subframe
1 Year Manufacturer Warranty
Toolboxes
Bramco Spike Beds come standard with (2) front toolboxes. Our boxes are pre-fabricated and mounted to the underbody, making them more durable. All boxes are weather-sealed and keyed.
LED Lighting
Our LED lights come with a lifetime warranty. LED lighting is brighter and more dependable than incandescent.
Adaptive Harness
Our wiring harness comes with a 'plug and play' feature, making it easily adaptable to plug into Ford and GM trucks.
E/H Pump
Electric over hydraulic pump.
Recessed Gooseneck
30,000 lb capacity Gooseneck ball with lid that folds flat to either side.
Wide-Grab Arms
The arms on our beds will spread to an overall width of 144? on a DRW, and 120? on a SRW truck. Collapsed width is 32?.
Dual Cylinders
Our bale unit mechanism is powered by two tie-rod cylinders. By pushing from the base end of the cylinder gets better lift capacity and less wear on the seals.
Auto-Grade Paint
A two-stage poly paint with hardening activator is used on all Bramco beds. All beds go through a metal-blasting process before paint to ensure a long-lasting look and to prevent rust from setting in too early.
