Description

Toolboxes
Bramco Spike Beds come standard with (2) front toolboxes. Our boxes are pre-fabricated and mounted to the underbody, making them more durable. All boxes are weather-sealed and keyed.
LED Lighting
Our LED lights come with a lifetime warranty. LED lighting is brighter and more dependable than incandescent.
Adaptive Harness
Our wiring harness comes with a ‘plug and play’ feature, making it easily adaptable to plug into Ford and GM trucks.
E/H Pump
Electric over hydraulic pump.
Wear Bushings
The LE Spike Bed features replaceable wear bushings, to keep your bale bed working as long as you do.
Recessed Gooseneck
30,000 lb capacity Gooseneck ball with lid that folds flat to either side.
Safe Tine Storage
Tine storage on the LE Bed is underneath the frame, keeping them safely stowed away from theft.
Heavy Duty Hitch
Bramco Beds have one of the most rugged hitches in the bed business, with a 3/4? reinforced hitch plate.
Auto-Grade Paint
A two-stage poly paint with hardening activator is used on all Bramco beds. All beds go through a metal-blasting process before paint to ensure a long-lasting look and to prevent rust from setting in too early.
