GAWR (lbs/axle)5000

Curb Weight (lbs)2100

Payload (lbs)7800

FEATURES

Overview

The CAM Superline® Deckover Dump Trailer is built for customers who need the dumping functionality of a traditional small dump trailer with the extra height and accessibility of a deckover trailer. Whether you're hauling stone, debris, or equipment, this model gives you robust payload capacity and practical versatility in a compact footprint.

Available Models

The standard model is the 6' x 10' Deckover Dump Trailer, rated at a 9,900 lb. GVWR. It features a 72.5" wide bed, 20.25" side walls, and a 3.9 cubic yard hauling volume—making it a strong contender among small dump trailers designed for serious work.

Standard Features

CAM Superline® outfits this deckover dump trailer with a rugged 5" channel frame, formed 10-gauge crossmembers, and an 11-gauge floor for long-term durability. Standard equipment includes a 7K drop leg jack, sealed wiring harness, stake pockets, zip breakaway system, LED lighting, and a 3.5"x36" hydraulic cylinder powered by a 12V pump. The remote control offers 20' of reach, and the pre-installed spare tire mount makes adding an optional spare wheel and tire a cinch.

Options

Optional upgrades expand the trailer's utility even further, including aluminum wheels, a 12K drop leg jack, wireless remote, bolt-on D-ring tie downs, a hydraulic jack, and a mesh tarp roller kit with aluminum cover. A complete spare tire and wheel assembly is also available to complement the built-in mount.

Contact us for an exact out the door total.
