Overview

CAM Superline®'s Standard Duty Deckover Trailers are designed for hauling equipment, pallets, building materials, or oversized loads that require full deck width. With a 102"-wide deck and heavy-duty build quality throughout, this deck over trailer strikes the ideal balance between strength and value. Engineered with contractors in mind, it performs reliably job after job.

Available Models

Available in both bumper pull and gooseneck configurations, this flatbed trailer comes in multiple lengths: 20', 22', and 24' models with 15,400 or 17,600 lb. GVWR ratings. Gooseneck versions offer enhanced towing stability and include a dual jack system with tool tray and winch receiver for added utility.

Standard Features

Built with a W10 I-Beam frame, 5" C-channel side rails, and 3" C-channel crossmembers on 16" centers, the structure is rugged and dependable. Pressure-treated pine decking, LED lights, a sealed wiring harness, and a powder-coated polyurethane finish round out the trailer's long-lasting build. Every trailer includes a spare tire mount, stake pockets, rub rail, and D-rings for easy tie-downs.

Options

Upgrade your setup with a gooseneck configuration featuring dual drop leg jacks, integrated toolbox, tool tray, and winch receiver. Additional customization options include oak decking for added durability, aluminum wheels for a premium look, a winch plate for added hauling power, and a drop-in toolbox (available on bumper pull models) for secure storage.

Contact us for an exact out the door total.

We offer 100% secure financing with approved credit at Trailer Corner - We also will accept all major credit/debit cards, and we charge a 3% processing charge on all credit card payments.
