The United UXT Trailer is the best-selling and most versatile model in the United lineup, built to handle everything from commercial job sites to race day demands. As the flagship trailer, the UXT delivers a perfect balance of strength, durability, and adaptability—making it a true all-purpose hauler.

Constructed with a rugged steel uni-body frame and .030 smooth aluminum exterior, the UXT is engineered for long-term reliability and a clean, professional appearance. With 16-inch on-center floor, wall, and roof construction, a 3/4-inch plywood floor, and a one-piece aluminum roof, it provides the strength and structure needed for heavy-duty use.

Built for performance on the road, the UXT features independent torsion suspension axles, electric brakes, spread axle design, and aluminum wheels with radial tires—delivering a smooth, stable ride. A 7-foot interior height, rear ramp or double doors, and RV-style side door make loading and access easy and efficient.
