2026 Sure-Trac 7x20 22K HD PRO SERIES Equipment Trailer

Type	Trailer or Truck Bed	Category	Equipment Trailer
Stock#	8996	Location	Roxbury Trailers
Year	2026	Status	Available
Condition	New	Manufacturer	Sure-Trac
Model	7x20 22K HD PRO SERIES Equipment Trailer	Floor Length	240in / 20ft
Floor Width	82in / 6ft 10in	GVWR	22000
Weight	4120	Payload Capacity	17880
Axle Capacity	10000		
Color	Black	Fenders	Double Break Tread Plate
Coupler	Adjustable 4-Bolt Pintle Ring	Jack	12K, 2-Speed Drop Leg
Pull Type	Bumper	Axles	2
Suspension Type	Leaf Spring Suspension	Construction	Steel

Msrp	19013	Warranty	3-Year Frame and Component Overall Protection 1-Year Tire Hazard and Abuse Protection 5-Year Standard Tire Warranty 5-Year Axle and Suspension Warranty
Length	336in / 28ft	Brakes	YES- Electric - Both Axles
Lights	LED	Tires	ST235/75R17.15J 18-PLY
Floor	2" Pressure Treated Pine	Load Securement	(4) 3/4" D-Rings, Banjo Tie-Downs, Oversize 5" x 1/4" Thick Stake Pockets
Beavertail	3ft	Frame	8", 15 lb/ft I-Beam

Price: \$17,495.00

MSRP: \$19,013.00

Description

Commercial Infrastructure: 2026 Sure-Trac 7x20 (17+3) Pro Series Heavy Duty Equipment Trailer 22K

This is not a standard 14K utility deck. The 2026 Sure-Trac Pro Series 22K Equipment Trailer is engineered specifically for heavy civil contractors, excavation crews, and commercial haulers who operate severe-duty machinery. If you are regularly moving large excavators, full-size skid steers, or heavy track loaders, standard channel-frame trailers simply cannot handle the structural fatigue. The Pro Series is a purpose-built industrial asset executed with an 8-inch structural I-beam chassis, 10,000 lb. commercial torsion axles, and 18-ply radial tires. It represents the absolute pinnacle of open equipment transport—built to handle maximum capacity daily operations with complete engineering confidence.

Key Capacities & Dimensions

- GVWR: 22,000 lbs (Heavy-Duty Class)
- Curb Weight: 4,120 lbs
- Net Payload Capacity: 17,880 lbs
- Deck Dimensions: 7' Wide x 20' Total Length (17' Flat Deck + 3' Cleated Beavertail)
- Width Between Fenders: 82" Clear Loading Width

- Deck Height: 26" Low Profile Loading Clearance
-

Technical Specifications

Main Frame 8" Flange, 15 lb/ft Structural Steel I-Beam
Tongue Architecture 72" Extended Tongue (8" Flange, 13 lb/ft I-Beam)
Running Gear (2) 10,000 lb. Heavy-Duty Torsion Brake Axles
Hub Configuration Commercial Oil Bath Hubs
Tires & Wheels ST235/75R17.15J 18-PLY Severe-Duty Tires
Coupler Setup Adjustable 4-Bolt Heavy Pintle Ring
Jack System HD 12,000 lb. Two-Speed Drop-Leg Jack
Ramp Configuration 24" Wide HD Mesh Covered Stand-Up Ramps with Spring Assist
Decking 2" Pressure-Treated Pine
Front Bulkhead HD Steel Bulkhead with Integrated Tie-Down Points
Tie-Down System (4) 3/4" D-Rings, Banjo Tie-Downs, Oversized 5" x 1/4" Stake Pockets
Storage Infrastructure Large Toolbox with Gas Spring and Interior LED Light
Finish Bead-Blasted, Premium Industrial Grade Polymer Finish

Commercial-Grade Engineering Highlights

1. Industrial 8" I-Beam Chassis & 72" Extended Tongue

The foundation is constructed from structural 8" at 15 lb/ft I-beam steel. Combined with an extended 72-inch tongue built from 8" flange I-beam, this layout provides exceptional structural integrity and geometric stability. The extra tongue length drastically improves towing tracking, eliminates sway under maximum payloads, and gives your medium-duty or semi-dump truck plenty of jackknife clearance in tight job sites.

2. Severe-Duty 10K Torsion Axles & 18-Ply Tires

This trailer moves completely away from traditional leaf springs. It utilizes dual 10,000 lb. torsion brake axles paired with commercial oil bath hubs, eliminating the constant maintenance of grease-packed bearings. It rides on massive 18-ply radial tires (ST235/75R17.15J), which offer near-impervious puncture resistance and run drastically cooler under extreme weight compared to standard 10-ply or 14-ply alternatives.

3. 24" Wide Mesh Covered Stand-Up Ramps

Loading steel tracks, narrow-wheeled rollers, or heavy rubber-tired equipment requires an uncompromising ramp profile. The extra-wide 24-inch stand-up ramps feature heavy-gauge steel mesh covering. This provides a high-traction surface for a wide variety of equipment and eliminates the tire spinning common on open-rung steel ramps. Integrated industrial spring-assist makes raising and lowering the ramps effortless.

4. Absolute Cargo Security Architecture

Securing 15,000+ lb. machines requires heavy commercial transport gear. The Pro Series comes factory-outfitted with an oversized tie-down package:

- Oversized 5" x 1/4" Stake Pockets: Built thick to easily accommodate massive commercial transport straps and chain binders.

- Integrated Banjo Eyes & 3/4" D-Rings: Standard chain securement slots built directly into the frame perimeter, accompanied by four ultra-thick 3/4" D-rings.
- Heavy-Duty Bulkhead: The front steel bulkhead adds front-end structural rigidity and features built-in tie-down loops for securing attachments, attachments, or secondary tooling.

5. Premium Workspace Optimization

- Premium 2-Speed 12K Jack: The heavy-duty 12,000 lb. drop-leg jack features a low-gear setting for lifting loaded trailers and a high-gear speed setting to instantly retract the footpad when hitching up, saving time and crew energy.
 - Lighted Tool Infrastructure: The oversized steel tongue box features gas-strut lid assists, deep tool capacity, and a factory-integrated internal LED light for early morning pre-trip inspections or night loading.
-

NOTES:

- Pricing: Cash/Check price listed.
 - Processing Fees: 3% Credit Card processing fee applies where applicable.
 - Documentation: Temporary license plate/transit registration included with all trailer purchases.
 - Sales Tax: NJ residents pay 6.625% sales tax at purchase. Out-of-state buyers pay applicable sales tax when registering the unit in their home state.
 - Availability: Please call the shop directly to confirm exact lot availability and options.
