Description

OPTIONS INCLUDED:

Spare Tire Mount
Rear Gate Swing Away
The unique Air-tow flatbed uses a totally different concept to make loading easier and safer. The trailer deck remains completely level as it raises or lowers hydraulically in less than 30 seconds. At ground level, you simply drive your equipment onto the trailer. It is especially useful for equipment with poor traction or low ground clearance such as scissor lifts, sweepers, pavement rollers, etc. Air-tow eliminates the need for difficult tilt beds or dangerous loading ramps, making it a one-man job even in adverse weather conditions.

Lift Mechanism: Hydraulic
