Price: $2,395.00

MSRP: $2,494.00
Sales Price: $1,995.00

Description

HTC Trailers Steel Tube Design
The primary purpose of an all-tube design in utility trailers is to deliver superior overall structural integrity, particularly in resisting twisting (torsional forces) and flexing during off-road or heavy-load conditions. Tubular steel (e.g., square tubing) encloses the material on all sides, creating a closed section that distributes stress more evenly and prevents deformation—essential for trailers that bounce over uneven surfaces or carry unbalanced loads. This results in a longer lifespan, better safety, and reduced maintenance compared to lighter-duty builds.
FEATURES
• 4 Leaf Double Eye Spring 18-3/8"
• 2" x 3" A Frame Tongue
• 2" x 2" Top Rails
• 4 Way Wiring Harness
• 5000# Coupler w/ 2" ball
• 5200# 1/4" Safety Chains
• Steel Fenders
• Diamond Plate Tread Steps
• Lifetime Warranty LED Lighting
• 15" Radial Tires
• Polyester Black Powder Coat Paint
• Spring Assist Rear Ramp
• Easy Removable Mesh Tailgate
• Tongue Jack w/foot pad
• Recessed Grommet Rubber Mounted Rear Tail Lights
AMP
The Anchor Management Post (AMP) revolutionizes cargo securement in utility trailers by integrating robust, steel hat channel uprights with 4 holes accommodating Rope, Flat Hook, E-track, and Wire Hook loading straps. This design cuts setup time by up to 50%, reduces load-shift risks, and distributes stress evenly for enhanced trailer longevity. As a result, HTC Trailers stands out as one of the most compatible steel options, seamlessly merging traditional and modern securement in a user-friendly framework.
