Price: $1,395.00

Description

Known as a "chicken flipper," this Amish-made grill with a rotating sandwich grate makes it fun and easy to grill tender, juicy chicken with crispy skin every time. In our opinion, this grill is the best wing cooker on the market and it does an excellent job of cooking chicken, sausage links, and many other foods, giving them a delicious smoky flavor.
The BBQ26S Chicken Cooker is charcoal / wood-fired and holds 15 lbs. of meat. An outstanding grill for small barbeques.

- A top lid gives you control over a hot fire. Leave the lid open for darker and more crispy skin on your chicken or close the lid for beautiful, golden-brown skin.
- A double-sided grate makes it easy to turn the entire rack of meat with one hand. The stainless steel grate never rusts and is easy to maintain, for many years of enjoyment.
- Height adjustment brackets for the charcoal pan let you bring the heat closer to the grate for thinner foods you want to cook with more intense heat, such as steaks, hamburgers, and hotdogs.
