The Sure-Trac ST-TSA6210-060 is a 5 ft x 10 ft Single Axle Tilt Bed Equipment Trailer designed for hauling compact equipment such as zero-turn mowers, scissor lifts, trenchers, small tractors, and other jobsite machinery. With a 6,000 lb GVWR, 5,200 lb torsion axle, and an estimated 4,640 lb payload capacity, it provides a durable and efficient transport solution in a compact size.

Its gravity-tilt bed design eliminates the need for loading ramps, allowing equipment to be loaded and unloaded quickly and safely. Key features include a heavy-duty steel frame, pressure-treated wood decking, hydraulic dampener for smooth tilt operation, adjustable 2-5/16" coupler, A-frame toolbox, stake pockets, rub rails, D-ring tie-downs, LED lighting, and easy-lube hubs.

Built for contractors, landscapers, and equipment owners, the ST-TSA6210-060 combines easy loading, reliable towing performance, and rugged construction, making it an ideal trailer for transporting compact equipment and machinery.
