Price: \$12,995.00

Description

CAM BEAST Tilt Trailer - 20' - 16k GVWR - W/ RUB RAIL - Stock #: C9243

Built for the most demanding jobs, The BEAST Tilt Trailers from CAM Superline® deliver superior performance, strength, and versatility. Whether you choose a full deck or split deck configuration, these heavy duty equipment trailers are engineered for rugged reliability, safe loading, and long-term durability.

Key Benefits

I-Beam Frame and Tongue – Unmatched Structural Strength

The steel beam frame and tongue offer the durability and support required for heavy-duty equipment transport.

Torsion Suspension – Smoother, More Stable Towing

Standard on 22K models, independent torsion suspension absorbs shock and reduces trailer bounce, delivering a smooth ride under heavy loads.

Heavy-Duty Steel Bulkhead – Built-In Front-End Protection

The reinforced bulkhead shields your cargo and adds rigidity to the trailer's front structure.

Full-Size Integrated Steel Toolbox with Light – Secure, Illuminated Storage

A spacious, lockable steel box with an LED light keeps tools and gear accessible and protected day or night.

Slip-Resistant Deck Access Step – Safe, Easy Deck Entry

Textured step surface ensures sure footing when stepping onto the deck, even in wet conditions.

Banjo Tie-Downs – Flexible and Rugged Cargo Securement.

Durable eye-style tie-downs provide versatile anchor points to secure all types of equipment.
