Description

OVERVIEW

Get power and comfort with the CT2540 compact tractor's 38-hp engine and fully enclosed cab for working on hot summer days and in harsh, cold weather.

From moving snow to planting a food plot or digging holes for trees and fences, this tractor can get more done with its Category 1 three-point hitch for use with a variety of implements.

The easy-to-use, responsive 3-Range hydrostatic transmission means you'll spend less time moving from one point to another, because every second counts when you have work to get done. Make light work of front-end loader tasks with the integrated loader joystick lever.

The CT2540 comes standard with rear PTO, with optional mid-PTO.

Engage the standard four-wheel drive when you need extra, hard-working traction, but still require the maneuverability for working in tight areas. \
