Description

This 2026 Liberty 83 in x 20 ft equipment trailer is built for contractors and equipment owners who need serious capacity without sacrificing loading convenience. A 5 in channel frame and dual 5,200 lb axles support a 9,990 lb GVWR platform with a 7,540 lb payload capacity — enough to haul skid steers, compact tractors, or a full trailer load of landscaping equipment. Spring-assist ramps make loading powered equipment fast and safe, while the self-cleaning dovetail design sheds mud and debris automatically as equipment rolls up. Electric brakes on both axles provide confident stopping power at full load, and diamond plate fenders protect against road spray and debris kickback. The wood deck offers secure footing, and stake pockets with rub rail give you tie-down points along with side protection. A sealed wiring harness resists corrosion and moisture intrusion, and a 7,000 lb tongue jack makes hitching and unhitching manageable even at full load. LED lighting and a 7-pin truck plug round out the electrical package, and the 2 5/16 in adjustable coupler fits a wide range of tow vehicles. Finished in black, this Liberty equipment trailer is ready to go to work — contact us for current pricing.

Key Specs:
