Description

Stock# 057891
Model# XPRESS8.5X24CH-IF
All-Aluminum Construction
Lightweight aluminum means more of the fun stuff, with less of what weighs you down - like fuel consumption and vehicle wear-and-tear!
Flat Front w/Cast Corners
A flat front with cast corners makes your trailer a premium, extra-durable ride for your vehicle, coupled with a sleek, aerodynamic look.
Braked Leaf Spring Axle
Let a braked leaf spring axle reduce the brake load on your tow vehicle and ensure an evenly distributed, safer, better-controlled ride.
24” Stone Guard
Don't let rocky terrain slow you down. A stone guard deflects rocks, salt and debris to keep your trailer in top shape for endless miles.
Water Resistant Deck
Whether you're chasing fresh powder or blazing muddy trails, water-resistant decking defends your trailer floor against water and weather.
Dome Light w/ Switch
A dome light in your cargo trailer means you're never stuck fumbling in the dark, whether you're working or playing outside after dark.
Recessed D-Rings
Each D-ring has a maximum load of 5,000 lbs. so you can rest assured your cargo is safely secured inside your Xpress enclosed car hauler.
Beavertail Construction
Beavertail construction makes loading low-clearance vehicles easier and reduces the risk of dragging and damage to the undercarriage.
Screwless .03 Bonded Slides
With a smooth, seamless appearance and no screw holes piercing the panels, screwless sides prevent water intrusion with a premium look.
Plastic Salem Vents
Air out your trailer's interior with two Salem vents; one each placed at the front and rear of the trailer for maximum air circulation.
