Price: $7,495.00

Description

Universal Ramp Equipment Trailer
The Universal Ramp Equipment Trailer is the ultimate tool for those who need versatility and strength on the job. Whether you’re a contractor, landscaper, or farmer, this trailer is built to handle a wide range of equipment and materials, making it a trusted companion for hauling everything from compact loaders to longer, heavier machinery.
The secret to its adaptability lies in our extra-wide universal ramps, which can accommodate equipment with any wheelbase, ensuring smooth and secure loading every time. Imagine the ease of driving your skid steer or excavator onto the trailer without worrying about ramp placement. These universal ramps eliminate the guesswork, making the loading process faster and safer. And when you’re not using the ramps, they conveniently store flat on the deck, creating extra hauling space for long materials like lumber, pipes, or other oversized cargo. This added deck space means you can get more out of every trip, saving time and maximizing efficiency, especially when handling mixed loads.
