Description

Our Freedom Truck Body will stand firm and outlast the competition with a lifetime warranty on its craftsmanship. If you want your flatbed truck helping and hauling your business, it'll get the job done.

With a 2.5" receiver hitch and an easily stowed 30K gooseneck ball, this product comes with the features you need for towing. Like all Wil-Ro truck bodies, our Freedom Truck Body is outfitted seamlessly to your truck with multiple lengths and widths to fit nearly any make and model. The flatbed surface, a headboard rack to protect the cabin and rear window, and standard LED brake lighting demonstrate our commitment to safety in manufacturing truck beds.

This flatbed also comes with several optional features to even further customize your truck body to your business's hauling needs. Add 4-inch drop-in sides and a rear gate for additional safety and security of the load. A 16-inch trough creates more versatility for whatever it is you're hauling.

Features such as a B&W turnover ball can create more convenient hitching and towing options, and finally, an underbody toolbox makes for excellent storage capabilities.

We've been trusted for over five decades to give our customers quality, American-made products that fit your truck for whatever job you have. Making your flatbed work for your business is one of our top priorities. Put your truck and its cargo in the capable hands of Wil-Ro with one of our flatbeds.

We separate ourselves from the competition with quality and rich tradition cultivated for more than 50 years. As a veteran-owned business, we're proud to build American-made truck beds for your work vehicle, whether it's a brand new truck or has been your trusty companion for years.
