Description

Our Utility Flatbed offers a variety of different sizes, along with front and top-opening capabilities that will help you organize your gear. Put your mind at ease, knowing your cargo load, big or small, is secure in its place and will arrive at your job site safely.

Your team's safety and vehicle are at the forefront of all Wil-Ro's truck bodies' design and manufacturing. Included is the installation of a headboard rack to protect the rear window and cabin of the truck and standard LED brake lighting on the rear of the bed.

Offered in multiple lengths, this bed fits most makes and models of trucks. It also comes equipped with various towing features, including a 2-inch receiver hitch and an enclosed gooseneck hitch that is easily stowed when not in use.

These features, as well as the option of a 7-pole light plug in the gooseneck box, B&W turnover ball, and aluminum treadplate, make Wil-Ro's Utility Flatbed a perfect choice. Just like all Wil-Ro

products, it is built to last and made in America.
