22' electric power awning

Interstate battery supporting the 12V electrical system

Heavy-duty rear ramp door

Spacious 8.5' x 24' cargo area

Premium Rock Solid Cargo construction

Built for long-distance towing and years of dependable service

Built for racers, car enthusiasts, contractors, and anyone who demands premium quality, this Rock Solid Cargo 8.5x24 Enclosed Car Hauler is loaded with upgrades and ready to hit the road.

Whether you're hauling race cars, classic cars, side-by-sides, motorcycles, or valuable equipment, this trailer delivers the strength, style, and features serious buyers expect.

Finished in a stunning Black .080 Polycore exterior with Rock Solid's Super Stealth Blackout Package, this trailer offers an aggressive, modern appearance while providing the durability and low-maintenance benefits of premium Polycore construction. The semi-screwless exterior creates a cleaner, more refined look with fewer exposed fasteners, while ATP front and rear corners provide added protection in high-impact areas and enhance the trailer's premium finish.

Designed for outstanding towing performance, this trailer is equipped with 5,200 lb torsion spread axles that provide a smoother ride, improved stability, reduced trailer sway, and better weight distribution compared to traditional spring axles. Whether you're traveling across town or across the country, you'll appreciate the confidence and handling this suspension package provides.

This trailer isn't just built to haul—it's built to perform. A 22-foot electric power awning creates instant shade at the racetrack, jobsite, or campground, giving you the perfect outdoor workspace or pit area with the push of a button. Rear visibility is outstanding thanks to the integrated rear spoiler featuring 13-inch LED loadout lights, while additional 13-inch LED exterior lights on the curb side provide excellent illumination when loading after dark or working around the trailer at night.

Inside, bright 48-inch LED strip lighting provides outstanding visibility throughout the cargo area, making it easy to organize tools, secure vehicles, or work inside the trailer regardless of lighting conditions. An included Interstate battery powers the trailer's 12-volt system, allowing you to take advantage of the lighting and electrical features even when you're away from external power.

Perfect For -

Race teams and motorsports enthusiasts

Classic and collector car transport

Side-by-sides and UTVs

Motorcycle hauling

Mobile workshops
Contractors and construction professionals
Mobile detailing businesses
Car show enthusiasts
Commercial equipment transport
Custom trailer conversions

Whether you're headed to the racetrack, hauling valuable vehicles, growing your business, or looking for one of the most well-equipped enclosed trailers on the market, this Rock Solid Cargo 8.5x24 is built to exceed expectations. With premium upgrades, outstanding craftsmanship, and eye-catching style, it's ready to work as hard as you do.
