Description

The 2026 Carry-On 6X10 Utility Trailer is a steel open utility trailer with a treated-wood floor and a fold-down rear ramp gate, built for landscaping and general hauling. A fold-down gate means you walk or roll a load straight in rather than lifting it over the side.

• 2,990-lb GVWR with a single 3,500-lb E-Z Lube axle
• Fully welded steel angle-iron frame with a 2" x 2" tube top rail
• Treated-wood floor with open angle-iron sides and stake pockets
• Fold-down rear ramp gate (drops to load or folds into the bed) with spring latch
• Steel fenders and DOT LED lighting
• 2" A-frame coupler with a 2,000-lb top-wind jack
• E-Z Lube hub, multi-leaf springs, and a 4-way flat connector

Please give us a call for details and current trailer availability. Descriptions are subject to possible errors, so we recommend calling to verify all information.
