Description

This 2027 Homesteader 24 ft enclosed car hauler is built on a rugged steel frame with Dexter axles and EZ-lube hubs for dependable long-term service. A beavertail design combined with a spring-assist, knife-edge ramp door makes loading vehicles and equipment smooth and low-angle, and a 24-inch stoneguard protects the lower front from road debris. Inside, a 3/4-inch floor over 3/8-inch wall construction gives this trailer a solid, quiet feel, and the one-piece roof keeps water out at the seams. A V-nose profile improves towing aerodynamics, and radial tires plus 5,200 lb axles provide a stable, confident ride. With 7 ft of interior height, there's plenty of headroom to move around your cargo. This Homesteader car hauler is available at \$11,999.
