**Price: \$2,450.00**

## Description

### The Undisputed King of Open Utilities: 2026 Sure-Trac 5x10 Tube Top (2,990 GVWR)

If you're tired of flimsy, vibrating angle-iron utility trailers that twist the first time you cinch down a ratchet strap, this is the upgrade you've been waiting for. The Sure-Trac Tube Top isn't just a utility trailer—it's the industry benchmark.

The 6x10 footprint is the ultimate sweet spot for North Jersey landscapers, contractors, and powersports enthusiasts. It's compact and nimble enough to maneuver into tight residential driveways, yet engineered with the exact same commercial-grade DNA as Sure-Trac's heavy-duty industrial builds. Best of all, at a 2,990 lbs GVWR, it keeps you completely clear of complex commercial registration and brake controller requirements.

## Weight Capacities & Dimensions

- GVWR: 2,990 lbs
- Curb Weight: 970 lbs
- Payload Capacity: 1,970 lbs
- Deck Dimensions: 5' Wide x 10' Long

## Technical Specifications

Axle 3,500 lb. Heavy-Duty Spring Idler with Easy-Lube Hubs  
 Top Rail & Uprights 2" x 2" Rigid Steel Tube (Full-Seam Welded)  
 Frame & Crossmembers 3" x 2" x 3/16" Structural Steel Angle  
 Tongue 3" Wrapped Steel Channel  
 Decking 2" Pressure-Treated Pine (Includes Board Retainers)  
 Ramp Gate 4' Fold-Flat Spring-Assist with Grab Handle & Self-Retained Pins

Finish Premium Industrial-Grade Polymer Powder Coat  
Lighting Full LED, DOT Compliant  
Wheels & Tires 15" Radials (ST205/75R15C 6-Ply) on 5-Hole Steel Wheels  
Jack 2K Top-Wind Set-Back Jack

---

## Why the Sure-Trac Tube Top Crushes the Competition

### 1. Structural Domination: 2" x 2" Tube Top Rail

Most utility trailers use cheap, exposed angle-iron for the top rail which flexes, bows, and allows the sides to rattle apart over time. Sure-Trac uses a fully enclosed 2" x 2" structural steel tube top rail that is full-seam welded to heavy tube uprights. This creates a rigid, unyielding cage that acts as a structural bridge, eliminating frame twist under heavy loads.

### 2. The Smartest Gate on the Road: HD Fold-Flat Ramp

The 4-foot rear ramp features built-in spring assist and an oversized grab handle, making lifting it an effortless, one-handed operation. Even better, it's a true fold-flat design. When towing empty, lay the gate flat onto the deck to eliminate wind drag and save massively on truck fuel. If you're picking up longer lumber or pipes, lay the gate flat to let your cargo overhang safely.

### 3. Zero-Hassle Engineering

- **Setback Jack Protection:** The tongue jack is intentionally stepped back away from the coupler. This allows you to completely drop the tailgate of your truck or open your SUV hatch without slamming into the jack handle.
  - **Self-Retained Gate Pins:** No more dangling pins on cheap chains that get lost in the dirt. These spring-loaded, self-retained pins stay locked into the gate assembly permanently.
  - **Protected Wiring & Premium Powder Coat:** All wiring is entirely enclosed inside the tube frame, safe from road debris, mud, and weather. Combined with an industrial polymer finish, this trailer is engineered to look brand new through years of salt and grit.
- 

## The Verdict

Whether you are loading a commercial zero-turn mower, hauling an ATV to the trails, or moving construction materials, the Sure-Trac 5x10 Tube Top delivers unmatched towing stability, rock-solid rigidity, and distinct commercial quality. It's built to work, built to last, and built to look good behind your truck.

- **Temporary License Plate:** Included with all purchases.
  - **NJ Residents:** 6.625% Sales Tax applies at the time of purchase.
  - **Non-Residents:** Pay sales tax at the time of registration in your home state.
  - **Pricing Note:** Cash/Check price listed. A 3% processing fee applies to credit card transactions.
  - **Stock Images:** Some listings may contain stock images showing optional features (like a spare tire) not included in the base unit. Call the shop to verify exact lot configuration!
